

PROPOSAL FOR A STUDY TRIP CARBON NEGATIVE INTERVENTION IN INDIA – URBAN AND RURAL (Env/Edu/Culture)

BANGALORE & KUNDAPUR

- The **focus** of the project will be, for the participants to understand the carbon reduction policy of India and the project region and to study the best practices of an award-winning panchayat (Cluster of Villages), on waste management and identifying the gaps of the project village and school through a survey and to develop waste management action plan. The participants will also execute awareness and establish the waste management system in the school as a replicable model.
- To execute the project, they will be supported by the university professor in developing questionnaire and giving inputs to the surveys. The local partner and school students will be part of developing the action plan and execution of the project.
- Apart from this, the volunteers will explore Indian culture, public parks, agricultural Institutes to have a better idea of how the carbon reduction policy is maintained.
